

Fisher Funds Managed Funds Investment Update

Balanced Strategy 40/60 (closed to new investors)

For the quarter ended: 31 March 2026
This investment update was first made publicly available on:
1 May 2026.

What is the purpose of this update?

This document tells you how the Balanced Strategy has performed and what fees were charged. The document will help you to compare the investment option with other funds. Fisher Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this investment option

This investment option aims to provide a balance between stability of returns and growing your investment over the long term by investing in a mix of income and growth assets, and is automatically rebalanced each year to the target fund mix of 40% Conservative Fund and 60% Growth Fund.

Total value of the investment option	\$75,947,635
Number of investors in the investment option ¹	1,144
The date the investment option started	1 December 2021

What are the risks of investing?

Risk indicator for the Balanced Strategy²:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the investment option's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at ipq.fisherfunds.co.nz/ffmf.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future investment updates.

See the [product disclosure statement \(PDS\)](#) for more information about the risks associated with investing in this investment option.

How has the investment option performed?

	Past year
Annual return (after deductions for charges and tax)	1.70%
Annual return (after deductions for charges but before tax)	2.57%
Market index annual return (reflects no deduction for charges and tax)	9.64%

The market index return is made up of 40% Conservative Fund market index return and 60% Growth Fund market index return. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz under Fisher Funds Managed Funds or OFR10667.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. The market index return reflects no deduction for charges and tax.

What fees are investors charged?

Investors in the Balanced Strategy are charged fund charges that include GST. In the year to 31 March 2025 these were:

	% of net asset value
Total fund charges²	1.42%
Which are made up of:	
Total management and administration charges	1.42%
Including:	
Manager's basic fee	1.21%
Other management and administration charges	0.21%
Total performance-based fees	0.00%

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Katie had \$10,000 in the investment option at the start of the year and did not make any further contributions. At the end of the year, Katie received a return after fund charges were deducted of \$170 (that is 1.70% of her initial \$10,000). Katie did not pay other charges. This gives Katie a total return after tax of \$170 for the year.

What does the investment option invest in?
