## Notes

1. The GlidePath Age 25 risk indicator has been calculated using the return of the fund referenced for the age group. As that fund has not been in operation for five years, market index returns have been used from 1 January 2021 to 31 March 2025 and actual returns after that. As a result of those returns being used, the risk indicator may provide a less reliable indicator of the potential future volatility of GlidePath Age 25.
2. The annual fund charges for the GlidePath ages are estimated based on the annual fund charges for the Plan fund(s) as at the stated age. The annual fund charges will vary based on the performance of the Plan fund(s) and the proportion invested in each between GlidePath ages.
3. While there were no members in this GlidePath age as of 31 December 2025, we have prepared this information based on the mix of funds that comprise this GlidePath age.
