Fisher Funds LifeSaver Plan Fund Update

Trans Tasman Equity Fund

For the quarter ended: 30 September 2026
This fund update was first made publicly available on:
29 October 2026.

What is the purpose of this update?

This document tells you how the LifeSaver Trans Tasman Equity Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Fisher Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

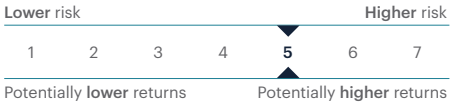
Description of this Fund

The fund focuses on growth of your investment over the long term by investing in Australasian companies.

Total value of the fund	$34,433,875
Number of investors in the fund	342
The date the fund started	1 March 1992

What are the risks of investing?

Risk indicator for the LifeSaver Trans Tasman Equity Fund:



The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at ipq.fisherfunds.co.nz/ffls-advice.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

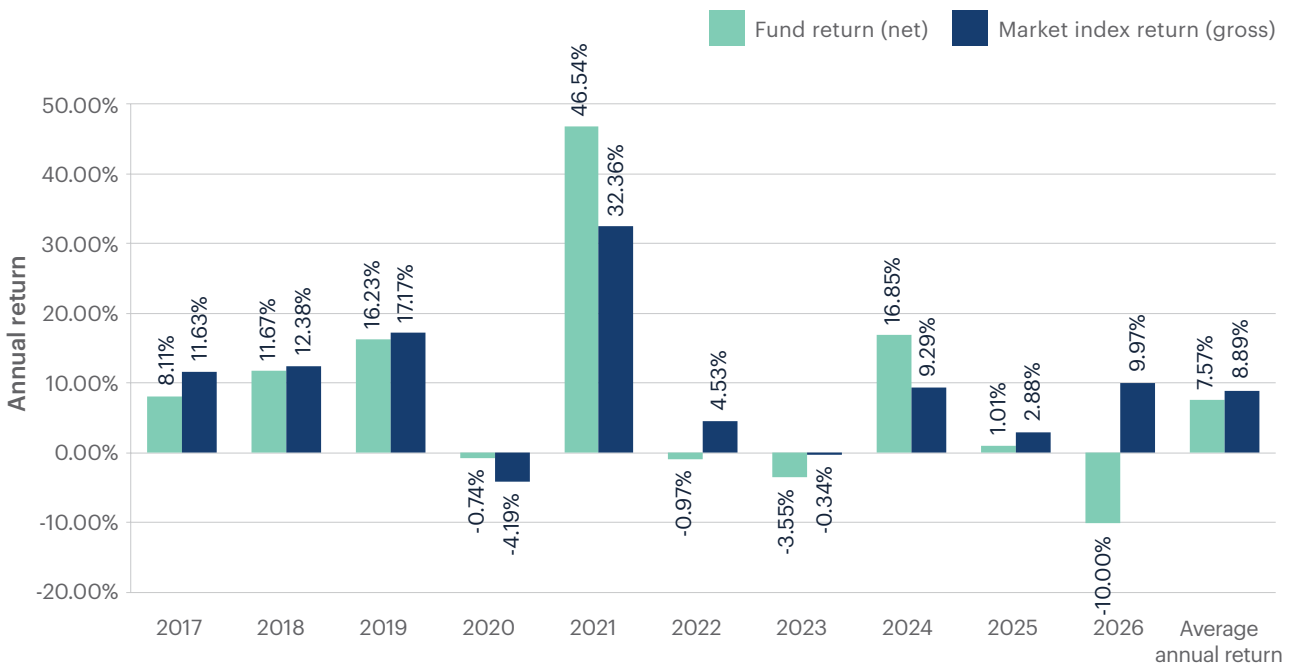
See the product disclosure statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	-0.38%	-8.91%
Annual return (after deductions for charges but before tax)	-0.22%	-9.20%
Market index annual return (reflects no deduction for charges and tax)	5.12%	4.45%

From December 2021 the market index is 50% S&P/NZX50 Gross Index including imputation credits and 50% S&P/ASX 200 Accumulation Index 70% hedged into NZD. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz under Fisher Funds LifeSaver Plan or OFR10649.

Annual return graph



This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 September 2026.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. The market index return reflects no deduction for charges and tax.

What fees are investors charged?

Investors in the LifeSaver Trans Tasman Equity Fund are charged fund charges. In the year to 31 March 2026 these were:

	% of net asset value
Total fund charges	0.93%
Which are made up of:	
Total management and administration charges	0.93%
Including:	
Manager's basic fee	0.90%
Other management and administration charges	0.03%
Total performance-based fees	0.00%
Other charges	$ amount per investor
Annual administration fees, supervisor fees, and expenses for services such as legal and audit services[1]	$84.47

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Sarah had $10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah incurred a loss after fund charges were deducted of -$891 (that is -8.91% of her initial $10,000). Sarah also paid $84.47 in other charges. This gives Sarah a total loss after tax of -$975.47 for the year.
