

Fisher Funds Premium Service Fund Update

Premium Income Fund

For the quarter ended: 30 June 2024
This fund update was first made publicly available on:
26 July 2024.

What is the purpose of this update?

This document tells you how the Premium Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Fisher Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this Fund

The fund aims to provide stable returns over the long term by investing in New Zealand and international fixed interest assets.

Total value of the fund	\$343,593,191
Number of investors in the fund	1,603
The date the fund started	10 October 2014

What are the risks of investing?

Risk indicator for the Premium Income Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at ipq.fisherfunds.co.nz/ffmf.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the past 5 years. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the [product disclosure statement \(PDS\)](#) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Average over past 5 years	Past year
Annual return (after deductions for charges and tax)	1.49%	5.79%
Annual return (after deductions for charges but before tax)	2.08%	8.14%
Market index annual return (reflects no deduction for charges and tax)	1.30%	5.49%

For the period covered by this fund update the market index is the S&P/NZX 2 Year Swap Index. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz under Fisher Funds Premium Service or OFR10668.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2024.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. The market index return reflects no deduction for charges and tax.

What fees are investors charged?

Investors in the Premium Income Fund are charged fund charges that include GST. In the year to 31 March 2024 these were:

	% of net asset value
Total fund charges	0.88%
Which are made up of:	
Total management and administration charges	0.88%
Including:	
Manager's basic fee	0.76%
Other management and administration charges	0.12%
Total performance-based fees	0.00%

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$579 (that is 5.79% of her initial \$10,000). Sarah did not pay other charges. This gives Sarah a total return after tax of \$579 for the year.

What does the fund invest in?
